November 1, 2018

**Discovering & Capitalizing
Upon the Political Context of
Where You Work & Live**

Knowing how to capitalize on the uniqueness of your environment can empower you. Your future will be impacted by your navigational abilities. Join us for a day to discuss the journey. Presented by Stewart Roberson

November 8, 2018

**The Skills that Matter; Teaching Self Regulation in any
High School Classroom**

In this session, you learn how to impact students' success by teaching self-regulation within science, math, language arts, and social studies course content. The presenter will provide an overview of the College & Career Competency Framework, share free resources, discuss implementation challenges, & provide instructional ideas specific to self-regulation. Participants will leave with a personalized plan to teach students how to self-regulate & guide them to practice the competency. Presented by Amy Gaumer Erickson, PhD.

Cost:

There is no charge for any of the workshops. Lunch & snacks are provided for each session. Parking is free.

November 15, 2018

**Educating for a Global
Community, Trends & Other
Hot Topics**

Global education begins by raising awareness of global challenges, creating deeper understanding of the complexity of underlying causes. It aims to change attitudes by reflecting on your role in the world. Presented by Ted Price.

Registration:

Email Lisa Roland at lroland@vt.edu to receive the registration link for the session(s) you wish to attend. There is no cost but seating is limited. Register today!
